SOLUTION FRAMEWORK

Fintech workflow stages from data collection to continuous improvement.

Fintech product journey from viewing to growth.

HOW GROWSAATHI WORKS

From payment data to actionable insights and measurable growth.

Same Transactions. Smarter Decisions. **Bigger Growth.**

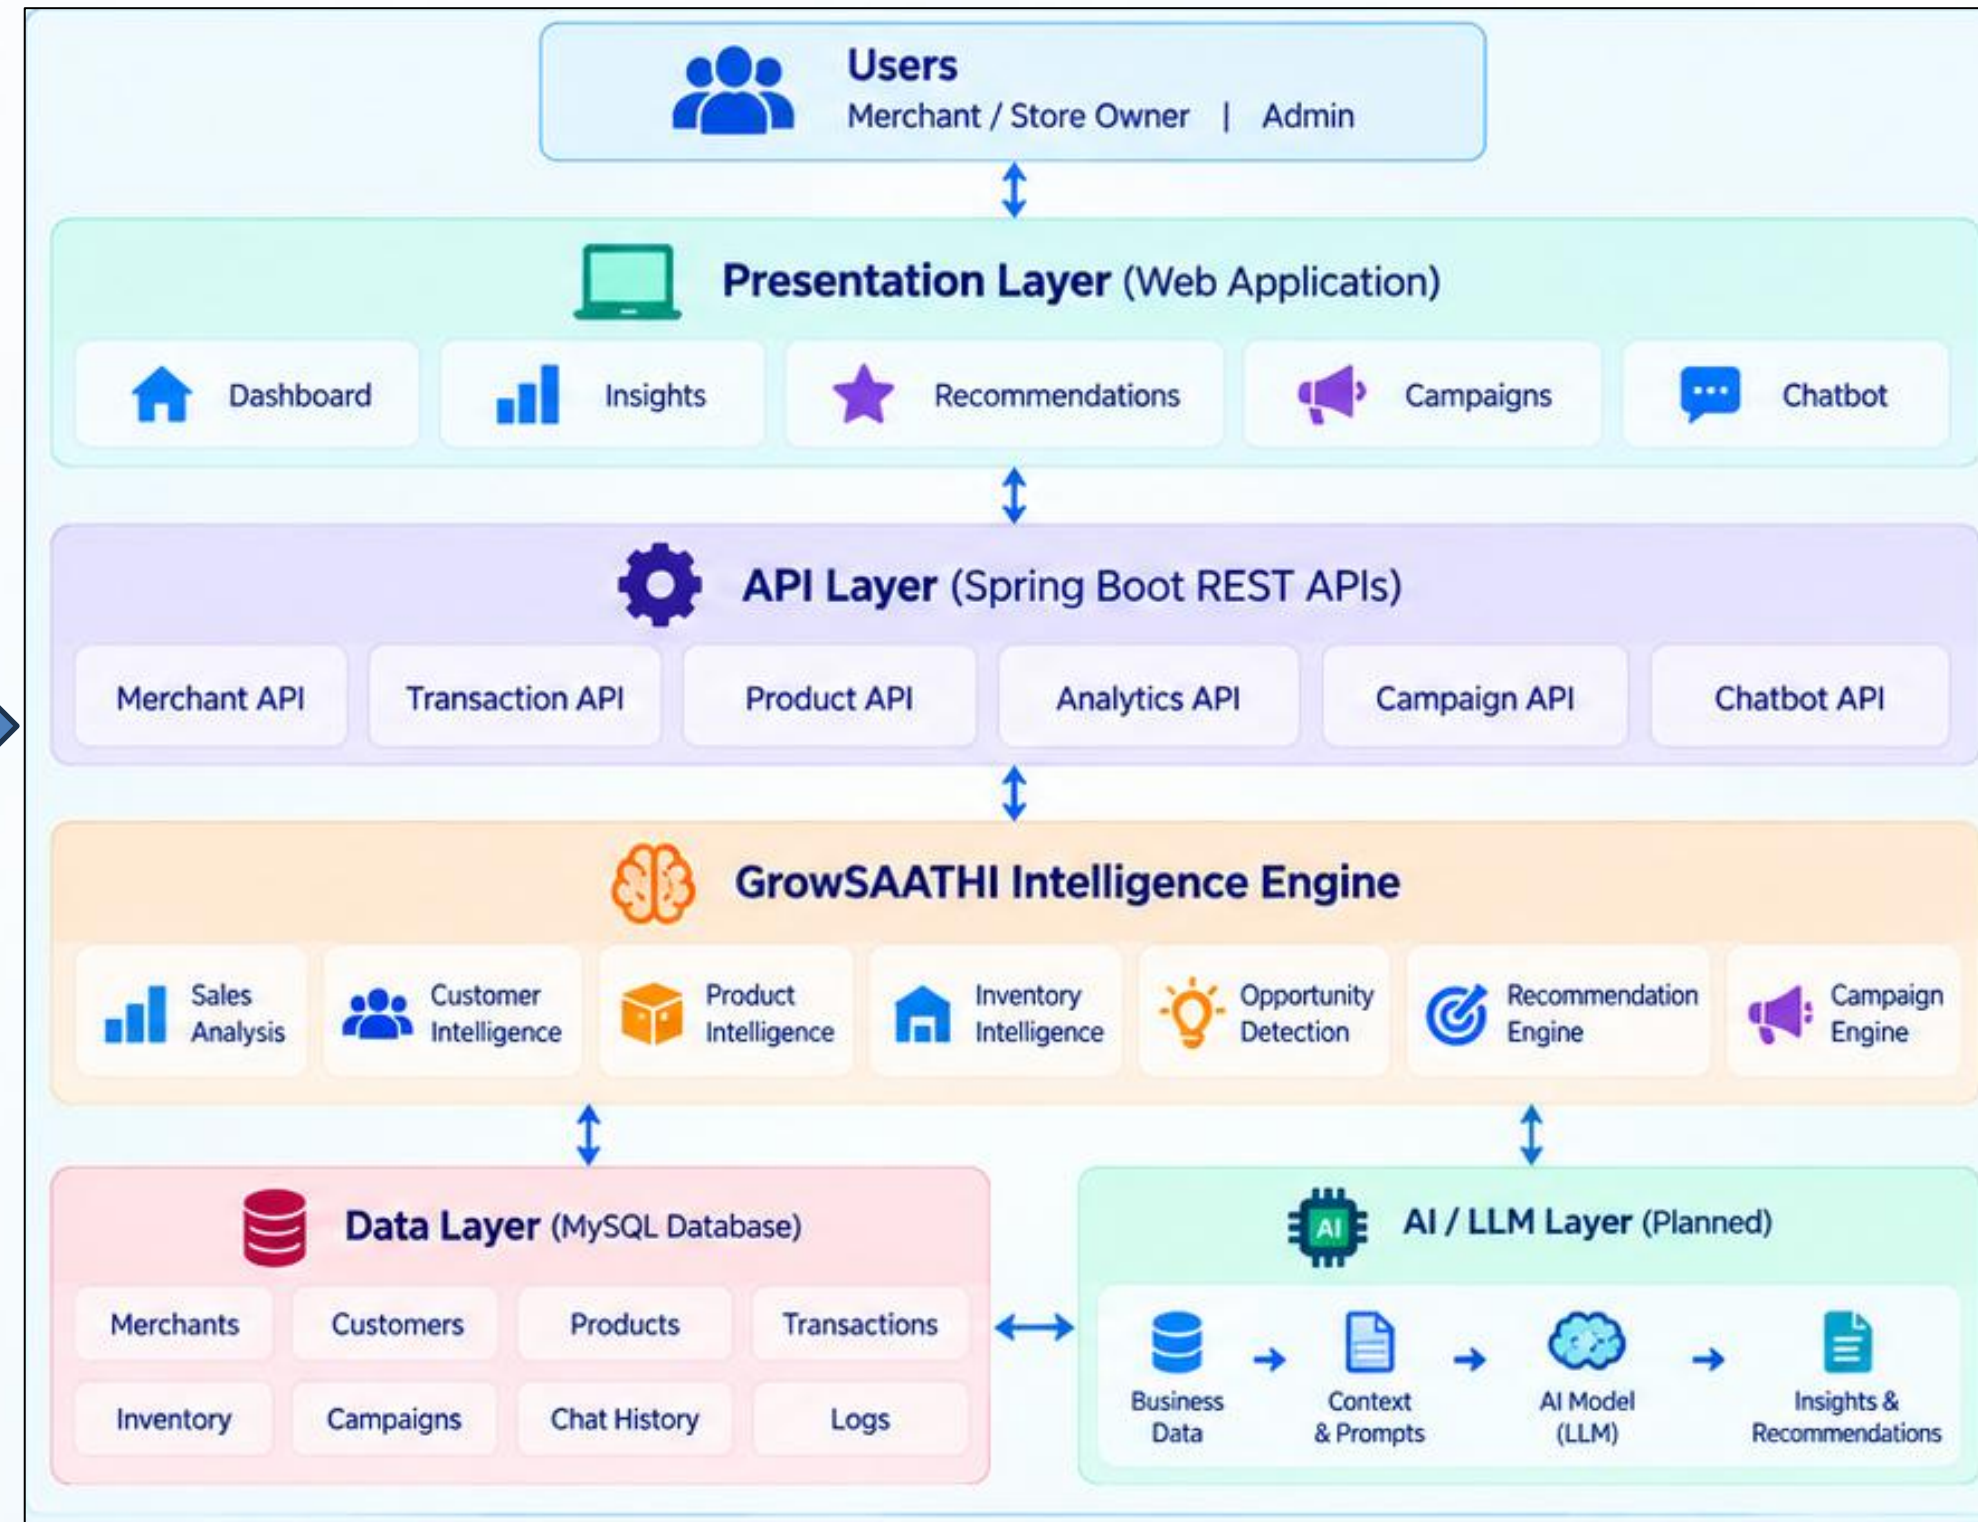

SYSTEM ARCHITECTURE

Key Components of GrowSAATHI Architecture

- 01 User Layer**
Merchant & Admin access the platform
- 02 Web Application**
Dashboard, Insights, Recommendations, Campaigns, Chatbot
- 03 API Layer**
Secure REST APIs to handle business operations
- 04 Intelligence Layer**
Analysis, opportunity detection and recommendation engine
- 05 Data Layer**
Stores merchant, transaction and business data
- 06 AI Layer (Planned)**
LLM integration for advanced insights and natural language support
- 07 Output**
Actionable insights and measurable growth

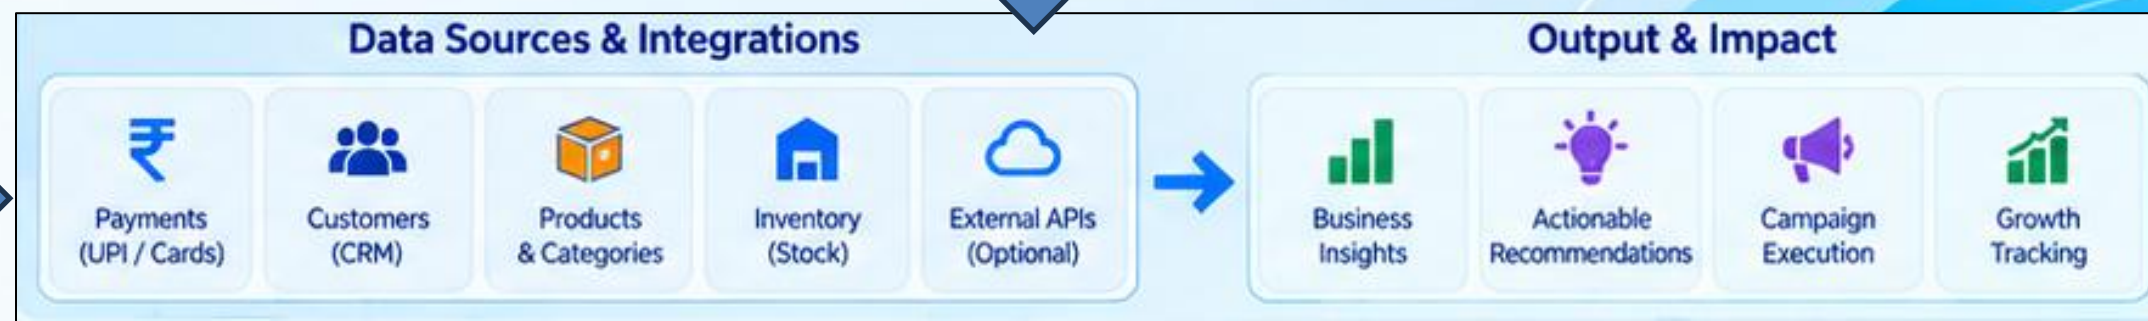

From Data to Decisions to Growth.

Technology Stack

Modern, reliable and future-ready

- Frontend**
Web Application (HTML, CSS, JavaScript)
- Backend**
Spring Boot (Java)
- Database**
MySQL
- APIs**
REST APIs
- AI (Planned)**
LLM Integration (e.g., OpenAI / Gemini)
- Deployment**
Cloud Server (AWS / Render / Azure)

Loyal Customer Appreciation Opportunity

INFO PRIORITY

WHAT HAPPENED (FACT)

240 customer(s) are frequent, loyal shoppers at your store.

Evidence:

- 240 loyal customer(s) with regular order frequency
- Average order value across store: ₹444.32

WHY (INTERPRETATION)

Loyal customers have strong brand affinity and consistent repeat purchase habits.

EXPECTED BUSINESS IMPACT

Loyal customers contribute the highest share of stable recurring cash flow.

Recommendation: Consider offering exclusive rewards or early-access promotions to your loyal customer tier.

Strategy Memory & Outcome Adaptation

Continuous Learning

Win-Back Campaign

Target: AT_RISK | Offer: Personalized Discount | Duration: 7 days

SUCCESS

Adaptation: Previous campaign 'Win-Back Campaign' demonstrated positive response (90-99% conversion). This suggests the target segment was receptive to this effort!

FUTURE SCOPE

Building a Smarter, Bigger and More Connected Ecosystem

01

Live AI Intelligence

Real-time AI analysis and personalized recommendations to help merchants make faster and smarter decisions.

02

Backend & Cloud Integration

Connect with live merchant, transaction and customer data using secure cloud infrastructure for real-time intelligence.

03

Business Integrations

Seamless integration with WhatsApp, CRM, inventory systems and payment ecosystem (e.g., Paytm, UPI).

04

Advanced AI Assistant

Voice-enabled, multilingual (Hindi & English) conversational assistant for queries, insights and campaign suggestions.

05

Scalable Merchant Platform

Multi-merchant support, role-based access, enterprise security and cloud deployment to scale across India and beyond.
